

THE INDUSTRIAL INTERNET QUEST

*Become an Edison Pioneer,
start building the IIoT's future.*

17 APRIL TO 17 MAY 2017

GE Digital

THE CHALLENGE

The Industrial Internet Quest is organized by General Electric and IEEE. This is a free one-month online challenge that will take place on the cloud-based platform Predix - an operating system used to build predictive apps.

WHY JOIN THE CHALLENGE

The IIoT Quest offers the three winners a prize pool of seed money worth up to 30000€ and a showcase of their prototype at Minds+Machines Europe in Berlin.

DATA

PROGRAM

1

Apply to the Program

2

Create your Predix account for free [HERE](#), then begin playing with the data and build your predictive application.

3

Win a cash prize and fly to Minds and Machines Europe in Berlin to showcase your application in front of GE Business Units and customers.

A CHALLENGE FOR :

HIGHLY SKILLED ENGINEERS

DATA SCIENTISTS

SOFTWARE DEVELOPERS

PREDIX

As it connects machines, data, people, and other assets, the Predix platform uses leading technologies for distributed computing, big-data analytics, asset data management, and machine-to-machine communication.

A WORD ON GE DIGITAL

GE Digital connects streams of machine data to powerful analytics and people, providing industrial companies with valuable insights to manage assets and operations more efficiently. World-class talent and software capabilities help drive digital industrial transformation for big gains in productivity, availability and longevity.

A WORD ON IEEE

IEEE is the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity.
